## EXPECTS TO HAVE SURE CURE FOR INFANT PARALYSIS BY SUMMER

CHICAGO, March 9.—Dr. Maximilian Herzog expects to have perfected a safe cure for infantile paralysis before the fatal hot summer months, he announced today.

"Already," said Dr. Herzog, who has made an exhaustive study of the cause, prevention and cure of the disease which caused so many deaths and so much distress last summer, "The microbe which causes infantile paralysis has been definitely isolated and experiments are being made to locate an antitoxin which effectively stamps out the disease among sheep and cattle.

"We hope to have perfected an effective antitoxin for human beings by summer."

The Chicago health authorities have enlisted prominent physicians, bacteriologists, nurses, women's clubs and civic organizations in a concerted effort to check the disease before it gets a start in Chicago this year.

THE PNEUMONIA SEASON  
The cold, damp weather of March seems to be the most favorable for the pneumonia germ. Now is the time to be careful. Pneumonia often results from a cold. The quicker a cold is gotten rid of the less the danger. As soon as the first indication of a cold appears take Chamberlain's Cough Remedy. As to value of this preparation, ask anyone who has used it.
